Bullying  
15/3/2010

I strongly believe that bullying is wrong and hurtful and should be stopped the moment it is started.

I have never been a bully or a victim of bullying, but some of my friends have. They told me how they felt and I did my best to understand. It must have really hurt and upset them.

There are many ways of bullying, such as: rumours, threats, cyber threats, physical abuse, property damage, name calling and racial slurs.

I think no one should bully, especially if the victim is vulnerable, younger and/or doesn’t have many friends. If anyone gets bullied, I think they should tell a senior, teacher or a parent. It must be very hard and scary for victims.

If anyone is even thinking of bullying this is my advice: 1. THINK AGAIN!!!!!!! What goes around comes around!!!!!!!!! 2. BULLIES BEWARE!!!!!!!!!!! You’ll be caught one day or another!!!!!!!!!!!!!!!
